**NOTES:**

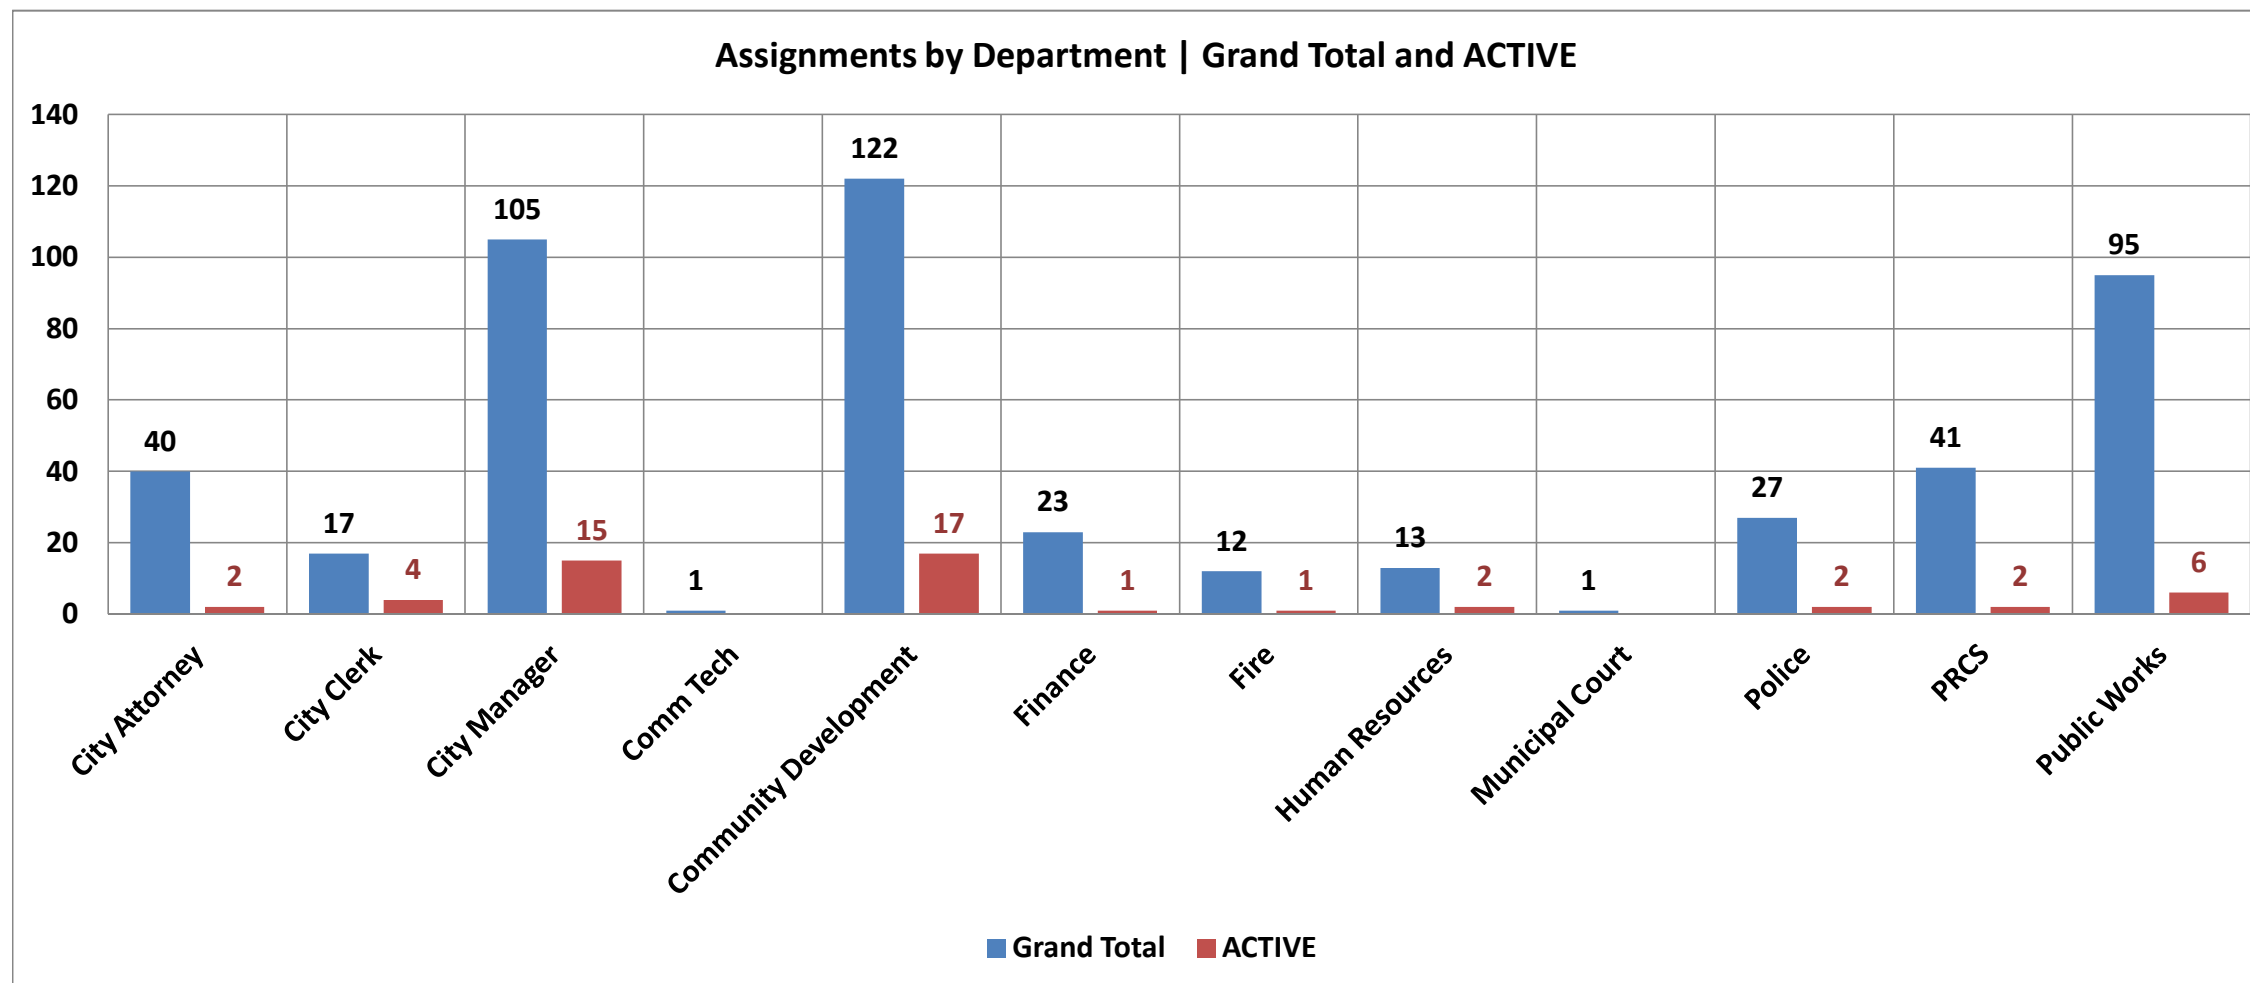

\*Council as a Whole - assignment created as a general assignment, resulting from items other than L. items.

**Explanation of Grand Total Differences between Assignments by Council Member and Assignments by Department:**

A single Council Assignment can be assigned to multiple departments. Assignments by Council Member has a smaller grand total because assignments that are assigned to multiple departments are removed and counted only as 1 assignment issued by a Council Member. For example, the Parking for Purpose Pilot Program is 1 assignment issued by Mayor Schieve to two departments, Public Works and PRCS. For this time period, there were 85 assignments that were assigned to multiple departments.
