Mr. Oswald confirmed for Commissioner Hawkins that as proposed this meets all the setback requirements in the area. As staff reviews the parcel map they will ensure each utility has an appropriate easement if needed.

Mr. McGonagle discussed the current rent range for the units and explained for Commissioner Marshall they are not currently considered affordable housing.

Mr. Oswald addressed Commissioner Marshall’s concern regarding possibly losing the opportunity for multifamily with this change. He explained they do not anticipate a large multifamily development coming in this type of area.

*It was moved by Commissioner Gower, seconded by Commissioner Taylor, in the case of LDC20-00056 (Sinclair Single Family Detached) based upon compliance with the applicable findings, to approve the special use permit, subject to the conditions listed in the staff report.*

Commissioner Marshall stated he can support this. We do need to look at the phenomenon. If this is happening throughout our multifamily area we need to track if what we are seeing is creating a higher income bracket for areas that are zoned multifamily.

*The motion carried unanimously with seven (7) commissioners present.*
